THE LATEST INNOVATIONS FROM HILL BRUSH

EXPERTS IN MANUFACTURING CLEANING EQUIPMENT

KEY TO SYMBOLS

Product Properties

	Autoclavable		Polypropylene Fill		Polyethylene Body
	Trim Length		Stainless Steel Fill		Thermoplastic Rubber
	For Threaded Handles Only		PVC Fill		Handle Diameter
	For Nail Handles Only		Steel Wire Fill		Capacity
	For Both Nail & Threaded Handles		Nylon Fill		Weight
	Temperature Tolerance		Polypropylene Body		Machine Washable
	Pack Quantity - Can Be Split		PVC Body		Waterflow
	Pack Quantity - Cannot Be Split		Stainless Steel Blade		
	Polyester Fill		Nylon Body		

Product Variants

	G = Green		B = Blue
	Y = Yellow		BLK = Black
	T = Tangerine		W = White
	R = Red		MDX = Dark Blue (Total MDX™)
	V = Violet		AM = Purple (Anti-Microbial)

Versatile Brooms

Our Stiff/Soft Bristle Brooms combine the ability to remove stubborn debris and sweep fine particles. The Upright and Angled Brooms allow confident sweeping in confined spaces.

- Compact cleaning solutions with many potential applications
- Ergonomically designed to support sweeping motion
- Made entirely from FDA/EU approved materials.

Stiff/Soft Broom B1797

Ideal for: Removing both stubborn debris and fine particles; large areas.

Size: 500 x 58mm

Stiff/Soft Broom B1798

Ideal for: Removing both stubborn debris and fine particles.

Size: 280 x 58mm

Medium Upright Sweeping Broom B1850

Crimped fill.

Ideal for: Sweeping in confined spaces.

Suitable Handles: ALH5, ALH7

Size: 252 x 45mm

Resin-Set DRS® Medium Upright Sweeping Broom B1850RES

Crimped fill.

Ideal for: Sweeping in confined spaces.

Size: 252 x 45mm

Medium Angled Sweeping Broom B1852

Ideal for: Sweeping in confined spaces.

Size: 252 x 45mm

Resin-Set DRS® Medium Angled Sweeping Broom B1852RES

Ideal for: Sweeping in confined spaces.

Size: 252 x 45mm

XL Bench Brushes

When time is limited, this extra-large bench brush allows you to clear a larger surface area with ease. Available in six colours.

- Large coverage for efficient sweeping
- Made entirely from FDA/EU approved materials.

Soft XL Bench Brush B1851

Crimped fill.

Ideal for: Fine particles, wide flat areas.

Size: 345 x 40mm

Resin-Set DRS® Soft XL Bench Brush B1851RES

Crimped fill.

Ideal for: Fine particles, wide flat areas.

Size: 345 x 40mm

Twisted Wire Brushes and Flexible Handles

Designed for cleaning long intricate pipework, Stainless Steel Twisted Wire Brushes are flexible, corrosion proof and exceptionally durable to withstand the rigors of cleaning.

- Stainless steel male ferrule for durability
- Six brush head sizes each available in four colours
- Two handle lengths available.

Twisted Wire Head T961

With stainless steel male ferrule.
Ideal for: Cleaning intricate pipework.

Size: 100 x 12mm ϕ (Overall 150mm)

Twisted Wire Head T962

With stainless steel male ferrule.
Ideal for: Cleaning intricate pipework.

Size: 100 x 20mm ϕ (Overall 155mm)

Twisted Wire Head T963

With stainless steel male ferrule.
Ideal for: Cleaning intricate pipework.

Size: 110 x 40mm ϕ (Overall 165mm)

Twisted Wire Head T964

With stainless steel male ferrule.
Ideal for: Cleaning intricate pipework.

Size: 110 x 50mm ϕ (Overall 170mm)

Twisted Wire Head T965

With stainless steel male ferrule.
Ideal for: Cleaning intricate pipework.

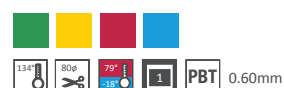

Size: 130 x 60mm ϕ (Overall 170mm)

Twisted Wire Head T966

With stainless steel male ferrule.
Ideal for: Cleaning intricate pipework.

Size: 130 x 80mm ϕ (Overall 180mm)

Flexible Twisted Wire Handle T/HAN1500

With stainless steel female ferrule.

Size: 1500mm

Flexible Twisted Wire Handle T/HAN3000

With stainless steel female ferrule.

Size: 3000mm

Flexible Plastic Scraper

A handy tool for any production area, the Flexible Plastic Scraper has a number of uses and delivers excellent cleaning results.

- Concaved angles for scraping tray folds, lips and crevices
- Radial edge follows the contours of bowls for efficiency
- Chiseled edge clears stubborn debris from flat surfaces.

Flexible Plastic Scraper FLPSC3

Size: 90 x 200mm

Double Bladed Plastic Squeegee

Dura-Flex™ natural mousse rubber with closed cell technology to prevent moisture penetration and promote longevity.

- Double rubber blade for efficient cleaning
- Made entirely from FDA/EU approved materials.

Double Bladed Plastic Squeegee* PS45

Ideal for: Controlling liquid spillages on coated/uncoated concrete floors, asphalt and other smooth surfaces.

Size: 450mm

Double Bladed Plastic Squeegee* PS60

Ideal for: Controlling liquid spillages on coated/uncoated concrete floors, asphalt and other smooth surfaces.

Size: 600mm

Double Bladed Plastic Squeegee* PS75

Ideal for: Controlling liquid spillages on coated/uncoated concrete floors, asphalt and other smooth surfaces.

Size: 750mm

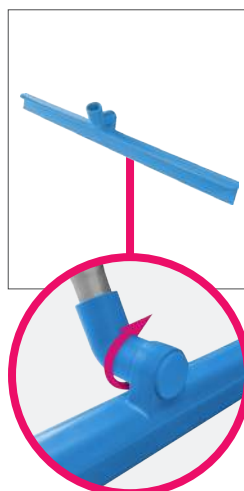

Swivel Head Squeegee

A versatile squeegee that unlocks access to awkward areas, thus allowing for a more thorough clean. The swivel head is designed with hygiene as a foremost consideration, using a simplified mechanism that reduces surface area for bacteria to harbour.

This product is a powerful addition to your cleaning equipment as it combines the manoeuvrability of a narrow squeegee with the efficiency of a wider blade.

- Swivel head mechanism for added manoeuvrability
- Overmoulded design reduces bacterial growth hotspots
- Made using FDA/EU Approved virgin materials
- Available in 10 colours for HACCP compliance.

Swivel Head Squeegee SWPLSB60

Size: 600mm

* We advise you to carry out a resistance test before using this product on oily or acidic substances/surfaces as some may cause an adverse reaction.

HYGIENIC CONTAINERS

Ultra Hygienic Bucket

Our Ultra Hygienic Bucket is ideal for moving ingredients or cleaning chemicals in food preparation areas. Designed with a base handgrip for easy pouring, which fits our HH2 wall bracket.

- Specifically designed to withstand industrial use
- Made from FDA/EU approved materials
- Bucket and lid each available in ten colours (AM + MDX).

12L Ultra Hygienic Bucket MBK15

Ideal for: Moving ingredients, cleaning chemicals.

Size: 290 x 308mm ø

Ultra Hygienic Bucket Lid MBK15/LID

Size: 15 x 310mm ø

Stainless Steel Scoops & Measuring Jugs

0.5L Stainless Steel Jug SSJUG1/2

Made using highly durable, Type 304 Swedish Stainless Steel.

Size: 120 x 110mm

1.2L Stainless Steel Jug SSJUG1

Made using highly durable, Type 304 Swedish Stainless Steel.

Size: 155 x 150mm

2L Stainless Steel Jug SSJUG2

Made using highly durable, Type 304 Swedish Stainless Steel.

Size: 170 x 200mm

0.5L Stainless Steel Scoop SSSCOOP1/2

Made using highly durable, Type 304 Swedish Stainless Steel.

Size: 260 x 150 x 75mm

1.2L Stainless Steel Scoop SSSCOOP1

Made using highly durable, Type 304 Swedish Stainless Steel.

Size: 330 x 195 x 100mm

1.7L Stainless Steel Scoop SSSCOOP2

Made using highly durable, Type 304 Swedish Stainless Steel.

Size: 380 x 120mm

HYGIENIC HANGING SYSTEMS

Colour Coded Hanging System

Store your cleaning tools hygienically with our Colour Coded Hanging System. The new hanger design reduces bacterial growth hotspots and allows for easy removal/cleaning.

- 515mm rails available in plastic and aluminium
- Two holds each available in seven colours
- Colour coded end caps and spacers for rails.

Plastic Hanging Rail HD8

With 4 x HOLD1 Hangers.

Size: 515mm x 55mm

Plastic Hanging Rail HD9

With 3 x HOLD2 Hangers.

Size: 515mm x 55mm

Medium Hanger HOLD1

To fit RAIL500 or PR500. Accepts 20-30mm Ø. Can be used individually.

Size: 83 x 86mm

Large Hanger HOLD2

To fit RAIL500 or PR500. Accepts 30-40mm Ø. Can be used individually.

Size: 77 x 86mm

Plastic Hanging Rail Spacers R/SPACE

To connect PR500 or RAIL500 rails together.

Size: 53 x 32mm

Plastic Hanging Rail PR500

Size: 515mm x 55mm

Stainless Steel Hanging System

Easy to clean and importantly, keep clean. The Stainless Steel Hanger holds products securely and its ergonomic design is ideal for use in hygiene-sensitive areas.

- Hygienic construction reduces bacterial growth hotspots
- Spaced hangers to accommodate our Ultra Hygienic Bucket

Stainless Steel Hanger SSHANG1

Ideal for: Storing cleaning tools hygienically.

Size: 75 x 310mm

Total MDX™ Brushware

Introducing a world first...resin-set, fully metal and x-ray detectable brushware. Absolutely everything from the brush back, to the filaments, to the Anti-Microbial resin is metal and x-ray detectable, making Total MDX™ Brushware the next generation in food safety.

- Metal and x-ray detectable brush back and filaments
- Detectable Resin-Set DRS® (Dual Retention System)
- Made entirely from FDA/EU approved materials
- HACCP compliant
- Available in dark blue with grey filaments.

Soft Hand Brush B861RESMDX

Ideal for: Very light particles; production lines.

Size: 317 x 36mm

Stiff Short Handled Brush D4RESMDX

Ideal for: Production lines.

Size: 254 x 72mm

Stiff Long Handled Brush D9RESMDX

Ideal for: Production lines; hard to reach areas.

Size: 406 x 50mm

Stiff Nail Brush NA4RESMDX

Ideal for: Removing heavy soiling from hands, fingertips.

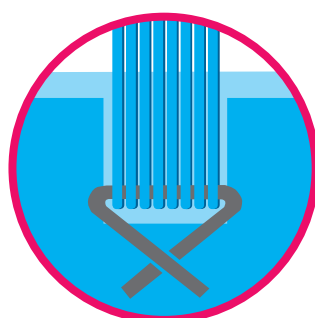

Size: 122 x 44mm

Medium Flat Sweeping Brush B758RESMDX

Ideal for: Medium size particles.

Size: 300 x 75mm

MDX Colour Coded Brushware

A metal and x-ray detectable range of products to complement your current work area segregation practices.

- Metal and x-ray detectable filaments
- Brush backs available in four colours.

Soft Hand Brush B861MDX

Only filaments are detectable.
Ideal for: Very light particles.

Size: 317 x 36mm

Stiff Short Handled Brush D4MDX

Only filaments are detectable.
Ideal for: Production lines.

Size: 254 x 72mm

Stiff Long Handled Brush D9MDX

Only filaments are detectable.
Ideal for: Hard-to-reach areas.

Size: 406 x 50mm

Soft Flat Sweeping Broom B1731MDX

Only filaments are detectable.
Ideal for: Stubborn debris.

Size: 280 x 58mm

All MDX products have been tested in various conditions and have proved to be effective. Factors influencing detection include contaminant dimensions, orientation, material type and environment conditions. Tests must be carried out on correctly calibrated detection equipment, prior to production, to determine detective properties.

Total MDX™ Hygienic Tools®

Extend your efforts in contamination avoidance with Total MDX™ Hygienic Tools®. Fully metal and x-ray detectable products for high risk areas, ensuring your regimes are food safety optimised.

- Metal and x-ray detectable (Total MDX™)
- Limit the risk of cross-contamination
- Available in dark blue.

Open Plastic Dustpan DP13MDX

Ideal for: Removing debris.

Size: 325 x 315mm

Type 304 Stainless Steel Handle SSH2MDX

With metal and x-ray detectable polypropylene handgrip.

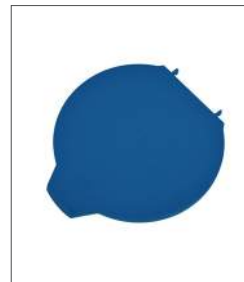

Size: 1350mm

12L Ultra Hygienic Bucket MBK15MDX

Ideal for: Moving ingredients, cleaning chemicals.

Size: 290 x 308mm Ø

Lid for the Ultra Hygienic Bucket MBK15/LIDMDX

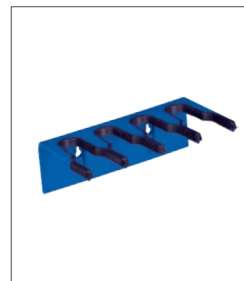

Size: 15 x 310mm Ø

Wall Bracket HH2MDX

Ideal for: Hanging our Bag Hoops (HH1) or Ultra Hygienic Buckets (MBK15).

Size: 120 x 110 x 80mm

Wall Bracket System WLBR1MDX

Ideal for: Stowing Salmon® Hygiene Technology cleaning tools.

Size: 206 x 75mm

Wash & Foam Systems

Our range of high specification Wash and Foam Systems equipment features durable, triple-layer hosing, robust shock proof guns and hydrofoamers for use with chemicals. Designed to cope with varying temperatures and the rigors of cleaning.

- Designed for use with low and high water pressure
- Three-layer hosing structure for absolute robustness
- High specification stainless steel components
- Cross-compatible fittings and attachments.

Heavy Duty Shock Proof Gun WF01

Pressure up to 24bar.

Ideal for: Industrial or domestic use, from vehicles to commercial kitchens.

Stainless Steel Hose Connector for Heavy Duty Shock Proof Gun WF02

Connects to ½" hoses (12mm inside) or ¾" (19mm inside).

Stainless Steel Automatic Hose Reel WF03

Spring-driven hose reel holds up to 25m of hose at ½" diameter. Pressure up to 200bar (2900psi). Hose not included.

Stainless Steel Wall Swivel Bracket for Hose Reel WF04

Swivel action has 160° radius for flexibility when hose is in use.

Thermoclean Hose WF05/25

Pressure up to 20 bar and 70°C. Three layer structure with non-staining blue outer layer. Single polyester braided reinforcement. 12mm Ø inside, 20mm Ø outside. Connectors not included.

25 metres

Thermoclean Hose WF05/100

Pressure up to 20 bar and 70°C. Three layer structure with non-staining blue outer layer. Single polyester braided reinforcement. 12mm Ø inside, 20mm Ø outside. Connectors not included.

100 metres

Ultimate Hose WF06/25

Pressure up to 50 bar and 70°C. Three layer structure with non-staining blue outer layer - very smooth. Double polyester braided reinforcement. 12mm Ø inside, 22mm Ø outside. Connectors not included. **25 metres**

Ultimate Hose WF06/100

Pressure up to 50 bar and 70°C. Three layer structure with non-staining blue outer layer - very smooth. Double polyester braided reinforcement. 12mm Ø inside, 22mm Ø outside. Connectors not included. **100 metres**

Screw Hose Connector WF07

Connect our hoses to various accessories.
To fit **WF05/25** and **WF05/100** hoses.

1/2" External Male Stainless Steel Quick Coupler WF08

To connect our hoses to various accessories.

1/2" Internal Female Stainless Steel Quick Coupler WF09

To connect our hoses to various accessories.

1/2" External Female Stainless Steel Quick Coupler WF10

To connect our hoses to various accessories.

Stainless Steel Ball Valve in Stainless Steel Protection Cover WF11

Pressure up to 75bar and 95°C. 1/2" internal and external threads.

Stainless Steel Ball Valve in Blue Rubber Protection Cover WF12

Pressure up to 60bar and 95°C. 1/2" internal and external threads.

Screw Hose Connector WF13

Connect our hoses to various accessories.
To fit **WF06/25** and **WF06/100** hoses.

1.4L HydroFoamer Complete with Gun Assembly HF1

For use with concentrated chemicals.

2.8L HydroFoamer Complete with Gun Assembly HF2

For use with concentrated chemicals.

Hill Brush manufactures the most comprehensive and innovative line of cleaning tools in the world.

- Unrivalled standards of quality with 93 years of manufacturing experience
- 10 colours available for a fully colour coded, HACCP compliant solution
- Brushware contains stainless steel staples and does not use flagged fibres
- Made from FDA/EU approved virgin materials, including rubber squeegee components.
